Senior Distributed Systems Engineer specializing in Go, Python, Rust

PROFESSIONAL SUMMARY

Accomplished professional with verified expertise in Go, Python, Rust. Demonstrated history of driving operational efficiency, process discipline, and delivering measurable results for Swiggy Technologies.

CORE COMPETENCIES & KEYWORDS

Go, Python, Rust, Kubernetes, Docker, PostgreSQL, Redis, Kafka, eBPF, gRPC, AWS, CI/CD, Linux, Distributed Systems

PROFESSIONAL EXPERIENCE

Senior Infrastructure Engineer | ScaleDistributed Systems [2021-04 – Present]

- • Spearheaded engineered high-performance api edge proxy in go with custom ebpf packet filters, delivering 42% latency reduction at 300k RPS (Production load tested across multi-region Kubernetes cluster).
- • Spearheaded redesigned distributed event streaming bus using kafka and postgresql partitioning, delivering 99.995% uptime and 60% compute cost savings (Ingesting 8TB daily telemetry data with zero data loss).

Backend Software Engineer | Nexus Data Cloud [2018-06 – 2021-03]

- • Spearheaded developed concurrent redis caching layer and optimized sql execution plans, delivering 3.5x throughput improvement (Handled Black Friday peak load with sub-15ms p99 response times).

EDUCATION & QUALIFICATIONS

Bachelor of Science in Computer Science — University of California, Berkeley (2018)
